SERVICE DELIVERY AREAS IN ARKANSAS

STATE OF ARKANSAS

The State of Arkansas, located in the south-central part of the United States, is comprised of seventy-five counties. Ten areas in the State have been designated as Service Delivery Areas under the Job Training Partnership Act. These areas are: the City of Little Rock, the Central Arkansas (excluding the City of Little Rock) Area, the Eastern Area, the North Central Area, the Northeast Area, the Northwest Area, the Southeast Area, the Southwest Area, the West Central Area, and the Western Area.

Four areas in the State are designated as Metropolitan Statistical Areas (MSA's). These areas include Fayetteville-Springdale, Fort Smith, Little Rock-North Little Rock, and Pine Bluff. In addition, three counties in the State are included in two other Metropolitan Statistical Areas. Little River and Miller Counties are included in the Texarkana, Texas-Arkansas MSA and Crittenden County is included in the Memphis, Tennessee-Arkansas-Mississippi MSA.

According to the 1980 census, Arkansas' total civilian population was 2,281,693. Of this number 1,186,087, or 52 percent, were female. The number of whites totaled 1,881,555, or accounted for over 82 percent of the total. During fiscal year 1987 the total civilian population is projected to reach 2,564,338 and during fiscal year 1988 the total is expected to be about 2,609,665.

In 1980, personal income in the State totaled $16,312.7 million. Projections indicate the 1987 total will be about $29,299.6 million and in 1988 around $31,447.0 million. Per capita income in 1980 was $7,097 and in 1987 and 1988 is expected to increase to $11,426 and to $12,050, respectively.

The State's total civilian labor force numbered 940,880 in fiscal year 1980. Total unemployment stood at 65,147 and the total unemployment rate was 6.9 percent. Fiscal year 1987 projections indicate the total civilian labor force will increase to 1,118,898, total unemployment will number 89,512, and the total unemployment rate will be about 8.0 percent. During fiscal year 1988 the total civilian labor force is estimated to be 1,139,595, total unemployment is projected at 86,609, and the total unemployment rate will be about 7.6 percent.

It is estimated that 450,194 persons, or 22.6 percent of the State's civilian population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1987. During fiscal year 1988 the estimated number of economically disadvantaged persons 14 years of age and over is expected to increase to around 458,177. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

TABLE 11
POVERTY GUIDELINES FOR ECONOMICALLY DISADVANTAGED CONTINENTAL UNITED STATES FISCAL YEAR 1986

Definition and Poverty Guidelines

The Employment and Training Administration defines an economically disadvantaged person as an individual who:

1. Receives, or is a member of a family which receives, cash welfare payments under a Federal, State, or Local Welfare Program;
2. Has, or is a member of a family which has, received a total annualized family income for the six (6) months prior to application, which, in relation to family size, was not in excess of the higher of:
   (a) the poverty level determined in accordance with criteria established by the Office of Management and Budget; or,
   (b) 70% of the lower living standard income level;
3. Is receiving food stamps pursuant to the Food Stamp Act of 1977;
4. Is a foster child on behalf of whom State or Local government payments are made; or,
5. In cases permitted by Regulations of the Secretary, is an adult handicapped individual whose own income meets the requirements of 1 or 2 but who is a member of a family whose income does not meet such requirements.

Under 1985 poverty guidelines, income levels for a family of one through eight persons for the continental United States are:

OMB[1] Poverty Level Income		70% Lower Living Standard Income Level		
Family Size	Poverty Guidelines	Family Size	Metro Area	Non-Metropolitan Area
1	$ 4,980	1	$ 4,170	$ 3,950
2	6,720	2	6,840	6,470
3	8,460	3	9,390	8,890
4	10,200	4	11,590	10,970
5	11,940	5	13,680	12,940
6	13,680	6	15,990	15,140
7	15,420	7	18,300	17,340
8	17,160	8	20,610	19,540
For each additional member, add:	$ 1,740	For each additional member, add:	$ 2,310	$ 2,200

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

CITY OF LITTLE ROCK SERVICE DELIVERY AREA

The city of Little Rock is located in the geographical center of the State. It is the central city of the Little Rock-North Little Rock Metropolitan Statistical Area, the capital city of the State of Arkansas, and the county seat of Pulaski County.

According to the 1980 census, the city had a total civilian population of 158,282. Females numbered 84,994 and accounted for approximately 54 percent of the population. Nearly 67 percent of the population was white. It is projected that the population will reach 178,132 during 1987 and 181,596 during 1988.

Total personal and per capita income estimates are not available for the city, however, estimates for Pulaski County should be reasonably representative. Total personal income for Pulaski County stood at $3,228.1 million in 1980. This figure is projected to reach $5,798.1 million in 1987 and $6,223.0 million during 1988. In 1980, per capita income was $9,414. In 1987, per capita income is expected to rise to about $15,142 and in 1988 should reach $15,942.

In 1980, the total civilian labor force stood at 78,624, total unemployment numbered 3,970 and the unemployment rate was 5.0 percent. It is projected that the total civilian labor force will increase to about 85,460 by 1987 and then to around 86,349 in 1988. Unemployment is expected to increase to 5,384 in 1987 and then decline to 5,268 in 1988. The unemployment rate is expected to be about 6.3 percent in 1987 and then decline to 6.1 percent in 1988.

Approximately 22,511, or 16.2 percent of the city's population 14 years of age and over, will be economically disadvantaged and eligible for programs under the Job Training Partnership Act (JTPA) in fiscal year 1987. During fiscal year 1988, this number will increase slightly to 22,979.

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

Source: Arkansas State Department of Education.

CENTRAL SERVICE DELIVERY AREA

Six counties located in the central part of the State make up the Central Service Delivery Area. These counties are: Faulkner, Lonoke, Monroe, Prairie, Pulaski (less the City of Little Rock), and Saline. The city of Little Rock is not included in this Service Delivery Area (SDA) because the city is a separate SDA.

According to the 1980 census, the total civilian population of the area was 334,082. Nearly 52 percent of the population was female and over 85 percent of the total was white. Projections indicate that the population will increase to 396,981 during 1987 and will rise to 406,565 in 1988.

In 1980, total personal income in the area (including the City of Little Rock) was $4,267.6 million. In 1987 and 1988 personal income is expected to total $7,665.1 million and $8,226.8 million, respectively. Per capita income in 1980 was $8,503. In 1987 per capita income is expected to reach $13,328 and in 1988 it should be about $13,987.

The area's total civilian labor force numbered 147,428 in 1980, unemployment stood at 8,156 and the unemployment rate was 5.5 percent. Projections indicate the total civilian labor force in 1987 will increase to 169,768, unemployment will rise to 11,544, and the unemployment rate should be about 6.8 percent. A significant gain in total employment should raise the total civilian labor force to 172,582 in 1988. Unemployment is expected to decline to around 11,045 while the unemployment rate will be approximately 6.4 percent.

Estimates indicate approximately 52,096, or 17.0 percent of the area's civilian population 14 years of age and over, will be economically disadvantaged in fiscal year 1987 and will be eligible for programs under the Job Training Partnership Act (JTPA). During fiscal year 1988 the number of economically disadvantaged persons 14 years of age and over is expected to reach 53,426.

Symbols Used in Table: A dash "–" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") indentifies estimated values for aggregated areas with partial suppression.

** Asian and Pacific Islander.*

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

EASTERN SERVICE DELIVERY AREA

The Eastern Service Delivery Area is comprised of five counties located in the eastern part of the State. These counties are: Crittenden, Cross, Lee, Phillips, and Saint Francis. One county, Crittenden, is also included in the Memphis, Tennessee-Arkansas Metropolitan Statistical Area.

The 1980 census lists the total civilian population of the area at 151,025. Females numbered 79,501, nearly 53 percent of the total. Whites accounted for nearly 55 percent of the total. It has been projected that the total civilian population will increase to 155,716 during 1987 and 156,433 during 1988.

In 1980, personal income in the area totaled $887.2 million. During 1987 it is expected to rise to $1,593.4 million and during 1988 a total of $1,710.2 million has been projected. Per capita income, which stood at $5,872 in 1980, is expected to reach $10,233 in 1987 and $10,932 in 1988.

The area's total civilian labor force numbered 55,039 in 1980. Total unemployment stood at 5,873 which gave the area a 10.7 percent unemployment rate. During fiscal year 1987 the total civilian labor force is expected to increase to about 67,041; total unemployment should be around 7,643, raising the area's total unemployment rate to 11.4 percent. Continuing increases in employment during 1988 should push the total civilian labor force to 67,747. Total unemployment is expected to drop to 7,384 during fiscal year 1988, thus lowering the area's total unemployment rate to 10.9 percent.

It is estimated that 41,589, or 36.7 percent of the area's population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1987. This group of disadvantaged persons is expected to increase to about 41,825 in fiscal year 1988. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

NORTH CENTRAL SERVICE DELIVERY AREA

Ten counties, located in the north central part of the State, make up the North Central Service Delivery Area. These counties are: Cleburne, Fulton, Independence, Izard, Jackson, Sharp, Stone, Van Buren, White, and Woodruff.

According to the 1980 census, the total civilian population of the area was 188,368. Females accounted for a little over 51 percent of this number, while nearly 95 percent of the total was white. Projections indicate the total civilian population will reach 218,117 during 1987 and 222,883 during 1988.

Total personal income in the area was $1,164.3 million in 1980. It is expected to increase to $2,091.1 million in 1987 and to $2,244.4 million in 1988. Per capita income in 1980 stood at $6,125. During 1987 per capita income is projected to reach $9,587 and by 1988 about $10,070.

In 1980, the area's total civilian labor force numbered 71,708 and total unemployment was 6,402 or 8.9 percent of the total civilian labor force. During fiscal year 1987 the total civilian labor force is expected to increase to 88,996, total unemployment is anticipated to rise to 8,900, and the total unemployment rate should be about 10.0 percent. Further increases are expected to raise the total civilian labor force to 91,491 in fiscal year 1988. Total unemployment is estimated to drop to around 8,600, and the total unemployment rate is expected to be about 9.4 percent.

It is estimated that 44,901, or 26.0 percent of the area's civilian population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1987. During fiscal year 1988 this number will increase to 45,927. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "–" represents zero or a percent which rounds to less than 0.1. The three dot symbol "..." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") indentifies estimated values for aggregated areas with partial suppression.

** Asian and Pacific Islander.*

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

NORTHEAST SERVICE DELIVERY AREA

The Northeast Service Delivery Area is comprised of seven counties located in the northeast part of the State. These counties are: Clay, Craighead, Greene, Lawrence, Mississippi, Poinsett, and Randolph.

The 1980 census lists the total civilian population of the area at 233,623. Females numbered 122,218, a little over 52 percent of the total. Whites accounted for nearly 91 percent of the total. It is projected that the total civilian population will increase to 254,434 by 1987 and 257,622 during 1988.

In 1980, personal income in the area totaled $1,553.6 million. During 1987 it is expected to rise to $2,790.5 million and during 1988 a total of $2,994.9 million is projected. Per capita income, which stood at $6,571 in 1980, is expected to reach $10,967 in 1987 and $11,625 in 1988.

The area's total civilian labor force numbered 96,703 in 1980. Total unemployment stood at 7,713 which gave the area an 8.0 percent unemployment rate. During fiscal year 1987 the total civilian labor force is expected to increase to about 113,771 while total unemployment should rise to around 11,036, pushing the area's total unemployment rate to 9.7 percent. Continuing increases in employment should push the total civilian labor force to 115,016 and lower total unemployment to 10,697 during fiscal year 1988, thus lowering the area's total unemployment rate to 9.3 percent.

It is estimated that 47,327, or slightly over 24 percent of the area's population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1987. This group of persons is expected to increase to about 47,972 in fiscal year 1988 and will be eligible for programs under the Job Training Partnership Act (JTPA).

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

NORTHWEST SERVICE DELIVERY AREA

Nine counties located in the northwest part of the State make up the Northwest Service Delivery Area. The counties are: Baxter, Benton, Boone, Carroll, Madison, Marion, Newton, Searcy, and Washington. Washington County also makes up the Fayetteville-Springdale Metropolitan Statistical Area.

The total civilian population of the area stood at 287,467 according to the 1980 census. Females numbered 146,410 and accounted for nearly 51 percent of the total. Nearly 98 percent, or 281,452, of the area's total civilian population was white according to the census. By fiscal year 1987 the total civilian population is expected to increase to 350,912 and by fiscal year 1988 it is projected to reach 361,180.

Personal income in the area totaled $2,020.2 million in 1980. Projections indicate that it will rise to $3,628.5 million by 1987 and $3,894.5 million by 1988. Per capita income in the area stood at $5,685 in 1980 and is expected to increase to $10,340 in 1987 and $10,783 in 1988.

The area's total civilian labor force numbered 120,709, in 1980. A total of 7,134 workers were unemployed leaving the area with a 5.9 percent unemployment rate. During fiscal year 1987 the civilian labor force is projected to reach 154,819, total unemployment should number about 8,825, and the total unemployment rate is expected to be around 5.7 percent. Projections indicate that during fiscal year 1988 the total civilian labor force will continue to increase and number about 159,824. Total unemployment is expected to decrease to 8,471, and the unemployment rate will probably be around 5.3 percent.

Projections indicate that 57,515, or slightly over 20 percent of the area's 282,744 civilian population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1987. During fiscal year 1988, the number of economically disadvantaged persons 14 years of age and over is expected to increase to 59,262. These persons will be eligible for programs under the Job Training Partnership Act (JTPA).

(1) Persons who are unemployed fifteen weeks or more in one year.

(2) Individuals who will experience unemployment at some time during the year. It is a projection of the total number of individuals who will eventually make up an average monthly unemployment estimate.

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

SOUTHEAST SERVICE DELIVERY AREA

The Southeast Service Delivery Area is comprised of ten counties located in the southeast part of the State. The ten counties included in this area are: Arkansas, Ashley, Bradley, Chicot, Cleveland, Desha, Drew, Grant, Jefferson, and Lincoln. The Pine Bluff Metropolitan Statistical Area, which is made up of Jefferson County, is located in the area.

The civilian population of the area totaled 244,735 according to the 1980 census. Of this number 125,882, or over 51 percent, were female and 161,354, or nearly 66 percent were white. By fiscal year 1987 the total civilian population is expected to increase to 257,367 and by fiscal year 1988 to around 259,295.

Personal income in the area totaled $1,628.6 million in 1980. By 1987 the total is anticipated to rise to about $2,925.2 million and by 1988 it should be about $3,139.9 million. In 1980 per capita income stood at $6,620. During fiscal year 1987 and fiscal year 1988, per capita income is projected to reach $11,366 and $12,109, respectively.

In fiscal year 1980, the total civilian labor force in the area numbered 94,266. Total unemployment stood at 7,035 and the total unemployment rate was 7.5 percent. Projections indicate that by fiscal year 1987 the total civilian labor force will increase to 102,565, total unemployment will increase to around 9,949, and the total unemployment rate will be about 9.7 percent. By fiscal year 1988 the total civilian labor force should increase to around 103,230. This increase should lower total unemployment to 9,600 and the area's total unemployment rate to 9.3 percent.

It is projected that 53,077, or nearly 27 percent of the area's 197,779 civilian population 14 years of age and over, will be classified as economically disadvantaged in fiscal year 1987. In fiscal year 1988 this number is expected to be about 53,534. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "–" represents zero or a percent which rounds to less than 0.1. The three dot symbol ". . ." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") indentifies estimated values for aggregated areas with partial suppression.

**Asian and Pacific Islanders.*

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

SOUTHWEST SERVICE DELIVERY AREA

The Southwest Service Delivery Area is comprised of twelve counties located in the southwest part of the State. The counties included in the area are: Calhoun, Columbia, Dallas, Hempstead, Howard, Lafayette, Little River, Miller, Nevada, Ouachita, Sevier, and Union. Two counties, Little River and Miller, are also included in the Texarkana, Texas-Arkansas Metropolitan Statistical Area.

According to the 1980 census, the total civilian population of the area was 246,445. Females accounted for 128,999 or slightly over 52 percent of the total population. A total of 175,390, or a little over 71 percent, of the population was white. By fiscal year 1987 the total civilian population is expected to reach 259,166. Additional gains should raise the total to 261,076 by fiscal year 1988.

Personal income in the area totaled $1,739.3 million in 1980. During fiscal year 1987 total personal income is projected to rise to $3,123.8 million and during fiscal year 1988 the total is expected to be around $3,353.0 million. Per capita income in 1980 was $6,980. During fiscal year 1987 it is expected to reach $12,053 and during fiscal year 1988 it should be about $12,843.

During fiscal year 1980, the area's total civilian labor force numbered 96,760, total unemployment stood at 6,286, and the total unemployment rate was 6.5 percent. It is projected that during fiscal year 1987 the total civilian labor force will increase to 123,546, total unemployment will be around 8,648, and the total unemployment rate will be about 7.0 percent. During fiscal year 1988, further increases should raise the total civilian labor force to 125,929; total unemployment is expected to decline to 8,437 and the total unemployment rate should drop to about 6.7 percent.

Estimates indicate that during fiscal year 1987 approximately 48,605, or slightly over 24 percent of the area's population 14 years of age and over, will be classified as economically disadvantaged. During fiscal year 1988 about 49,010, or over 24 percent of the population 14 years of age and over, will be economically disadvantaged. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "–" represents zero or a percent which rounds to less than 0.1. The three dot symbol ". . ." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") indentifies estimated values for aggregated areas with partial suppression.

**Asian and Pacific Islanders.*

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

INA = Information Not Available.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

WEST CENTRAL SERVICE DELIVERY AREA

The West Central Service Delivery Area is comprised of ten counties located in the west central part of the State. These counties are: Clark, Conway, Garland, Hot Spring, Johnson, Montgomery, Perry, Pike, Pope, and Yell.

According to the 1980 census, the area's total civilian population numbered 238,966. Of this total 123,281, or nearly 52 percent, were female and 218,018, or slightly over 91 percent, of the total were white. Projections for fiscal year 1987 indicate the total civilian population will reach 275,365 and by fiscal year 1988 the total will be approximately 281,063.

In 1980, personal income in the area totaled $1,641.5 million. During 1987 the total is expected to reach $2,948.4 million and in 1988 it should be around $3,164.4 million. Per capita income in 1980 stood at $6,848. It is expected to increase to $10,707 during 1987 and $11,259 in 1988.

The area's total civilian labor force stood at 97,447 in 1980. Total unemployment was 6,883 and the total unemployment rate was 7.1 percent. During fiscal year 1987 the total civilian labor force is expected to reach 115,526, total unemployment should rise to 10,166 and the total unemployment rate will probably be around 8.8 percent. By fiscal year 1988, the total civilian labor force should number about 117,986, total unemployment is expected to number around 9,793 and the total unemployment rate should be about 8.3 percent.

Projections indicate that during fiscal year 1987 a total of 46,852, or slightly over 21 percent of the area's 218,426 population 14 years of age and over, will be classifed as economically disadvantaged. During fiscal year 1988 this number is expected to increase to around 47,861. These people will be eligible for programs under the Job Training Partnership Act (JTPA).

Symbols Used in Table: A dash "–" represents zero or a percent which rounds to less than 0.1. The three dot symbol ". . ." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. The "@" symbol (which can be read as "approximately") indentifies estimated values for aggregated areas with partial suppression.

**Asian and Pacific Islanders.*

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

INA = Information Not Available.

Note: For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

WESTERN SERVICE DELIVERY AREA

The Western Service Delivery Area is comprised of six counties located in the western area of Arkansas. These counties are: Crawford, Franklin, Logan, Polk, Scott, and Sebastian. Two counties, Crawford and Sebastian, are included in the Fort Smith, Arkansas-Oklahoma Metropolitan Statistical Area.

The area's total civilian population numbered 193,398 according to the 1980 census. Approximately 99,565, or over 51 percent of the total, were female while 182,779, or over 94 percent of the total were white. During fiscal year 1987 the total civilian population is expected to increase to 218,149 and during fiscal year 1988 it is expected to reach 221,952.

In 1980, personal income in the area totaled $1,410.6 million. During 1987 the total is expected to be about $2,533.6 million and during 1988 it is projected to reach $2,719.2 million. Per capita income in 1980 was $7,256. It is expected to reach $11,614 in 1987 and in 1988 it should be about $12,251.

The area's total civilian labor force numbered 82,196 in fiscal year 1980. Total unemployment was 5,695, while the total unemployment rate stood at 6.9 percent. During fiscal year 1987 the total civilian labor force is expected to increase to 97,406, total unemployment should be about 7,305, and the total unemployment rate will probably be around 7.5 percent. During fiscal year 1988 the total civilian labor force should increase to about 99,443; total unemployment is expected to drop to 7,060; and the total unemployment rate should be about 7.1 percent.

Projections indicate during fiscal year 1987 approximately 35,721, or slightly over 21 percent of the area's population 14 years of age and over, will be classified as economically disadvantaged. Very little change is expected during fiscal year 1988 when the number is expected to be about 36,381. These economically disadvantaged persons will be eligible for programs under the Job Training Partnership Act (JTPA).

Note: Parts may not add to totals due to rounding.

For purposes of planning data, the economically disadvantaged is being used to represent the JTPA eligible population. The JTPA population does however, include two groups of individuals who may not be economically disadvantaged.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(a) Economically Disadvantaged but not eligible for JTPA programs.

(b) Not included in JTPA Eligible Population; eligible for limited participation.

(c) Hispanics may be included in all races.

The first such group are those individuals who have a significant barrier to employment. These people are eligible under Title 2B of the JTPA Act. The other group of individuals who are eligible but may not be disadvantaged are the unemployed. These individuals are eligible under Section 3 of the Act.

(1) Included in the Vietnam Veterans and Other Veterans estimates.

(2) Data for this target group represents those inmates released on parole from each county from July 1, 1984 through June 30, 1985. It differs significantly from data previously published for this group which also included those individuals expected to be placed on probation. Data on probationers was not available this year. The number in fiscal year 1988 is expected to be about the same as in fiscal year 1987. Approximately 85 percent of the parolees are expected to be economically disadvantaged.

(3) Includes adults who are receiving benefits through the Aid to Families With Dependent Children program. Data for June 1985 is being used for fiscal years 1987 and 1988 projections. The Deficit Reduction Act could influence the number of AFDC recipients in the future.

FAYETTEVILLE-SPRINGDALE METROPOLITAN STATISTICAL AREA

The Fayetteville-Springdale Metropolitan Statistical Area consists of Washington County. The area derives its name from the adjoining cities of Fayetteville and Springdale which had a combined total population of 60,066 in 1980.

According to the 1980 census, the total civilian population of the Metropolitan Statistical Area (MSA) was 100,412. The population was about equally divided among males and females. Whites made up almost 97 percent of the total. It is estimated that the total civilian population will increase to about 122,702 during fiscal year 1987 and is expected to reach 126,268 during fiscal year 1988.

In 1980, total personal income in the area was $697.5 million. In 1987 income in the area is expected to be $1,252.8 million and in 1988 should amount to $1,344.6 million. Per capita income in the area in 1980 was $6,935. It is expected to increase to $10,210 in 1987 and to $10,649 in 1988.

The total civilian labor force in the area numbered 46,039 in fiscal year 1980. Total unemployment was 2,359 and the total unemployment rate stood at 5.1 percent. During fiscal year 1987, the total civilian labor force is expected to be around 53,673, total unemployment should increase to about 2,523, and the total unemployment rate will probably be around 4.7 percent. Fiscal year 1988 projections indicate that the total civilian labor force will number about 55,094, total unemployment will be near 2,424, and the total unemployment rate is expected to fall to 4.4 percent.

2) Includes Asians and Pacific Islanders.

FORT SMITH METROPOLITAN STATISTICAL AREA

The Fort Smith, Arkansas-Oklahoma Metropolitan Statistical Area consists of Crawford and Sebastian Counties in Arkansas and Sequoyah County in Oklahoma. The area derives its name from the city of Fort Smith which had a total population of 71,626 in 1980.

According to the 1980 census the total civilian population in the Arkansas part of the MSA was 131,887. Of this number 68,408, or nearly 52 percent, were female and 122,524 or almost 93 percent of the total were white. During fiscal year 1987, the total civilian poulation is expected to increase to around 149,578 and in fiscal year 1988, the total number should be about 152,304.

In 1980, personal income in the MSA totaled $1,429.8 million and per capita income was $6,996. Projections for the entire MSA for 1987 and 1988 are not available.

The total civilian labor force in the Arkansas part of the Metropolitan Statistical Area numbered 59,070 in 1980, total unemployment was 3,723 and the unemployment rate was 6.3 percent. During fiscal year 1987 the total civilian labor force is expected to reach 72,587, total unemployment will rise to about 4,936, and the total unemployment rate should be around 6.8 percent. In fiscal year 1988, the total civilian labor force is projected to be about 74,249, total unemployment is expected to drop to around 4,752 and the total unemployment rate should be about 6.4 percent.

3) Includes Asians and Pacific Islanders.

LITTLE ROCK-NORTH LITTLE ROCK METROPOLITAN STATISTICAL AREA

The Little Rock-North Little Rock Metropolitan Statistical Area (MSA) consists of Faulkner, Lonoke, Pulaski, and Saline Counties. The area derives its name from the adjoining cities of Little Rock and North Little Rock which had a combined total population of 222,749 in 1980.

According to the 1980 census, the total civilian population of the MSA was 468,189. Of this number 245,699 or a little over 52 percent of the total were female, whites accounted for 373,376 or nearly 80 percent of the total. During fiscal year 1987 the total civilian population is projected to reach 550,671 and during fiscal year 1988 a total of 563,676 is expected.

In 1980, personal income in the MSA totaled $4,127.7 million. Projections indicate the total should be about $7,413.8 million in 1987 and $7,957.2 million in 1988. Per capita income in 1980 was $8,699. Increases should raise per capita income to around $13,463 during 1987 and $14,117 in 1988.

In fiscal year 1980, the total civilian labor force in the MSA numbered 217,300, total unemployment stood at 11,501, and the total unemployment rate was 5.3 percent. During fiscal year 1987 the total civilian labor force is expected to reach 246,582, total unemployment should be about 15,781, and the total unemployment rate will be around 6.4 percent. Continued increases in employment are projected to raise the total civilian labor force to about 250,336, total unemployment should drop to 15,270 and the total unemployment rate is expected to decline to 6.1 percent during fiscal year 1988.

1) Includes American Indians, Eskimos, and Aleutian Islanders.

2) Includes Asians and Pacific Islanders.

PINE BLUFF METROPOLITAN STATISTICAL AREA

The Pine Bluff Metropolitan Statistical Area (MSA) consists of Jefferson County which is located in the southeast part of the State. The area derives its name from the city of Pine Bluff which had a population of 56,636 in 1980.

The 1980 census lists the total civilian population of the MSA at 90,525. Approximately 46,582 or over 51 percent of the total were female and 53,094 or nearly 59 percent of the total was white. Projections indicate during fiscal year 1987 the civilian population will be about 94,256 and during fiscal year 1988 it is expected to number approximately 94,802.

In 1980, personal income in the MSA totaled $680.8 million. Projections for 1987 indicate that the total will reach $1,222.8 million and in 1988 should increase to about $1,312.4 million. Per capita income for the MSA in 1980 was $7,451. It is expected to be about $12,973 in 1987 and $13,844 in 1988.

The total civilian labor force in the MSA in fiscal year 1980 numbered 36,289, total unemployment stood at 2,763, and the total unemployment rate was 7.6 percent. During fiscal year 1987, the total civilian labor force is projected to reach 40,398, total unemployment will be about 3,434, and the total unemployment rate should be around 8.5 percent. Slight increases in employment are expected to raise the total civilian labor force to 40,892 and lower total unemployment to about 3,312 during fiscal year 1988. The total unemployment rate is expected to be around 8.1 percent.

Source: Report 3, Social Indicators for Planning and Evaluation, 1980 Census of Population, Lawrence Berkeley Laboratory, University of California, Berkeley, California.

Note: The 1980 poverty levels were based on 1979 income.

** Asian and Pacific Islander.*

Symbols Used in Table: A dash "–" represents zero or a percent which rounds to less than 0.1. The three dot symbol ". . ." indicates data suppressed by the Census Bureau or a calculated item containing one or more suppressions. Estimated values for aggregated areas with partial suppression are identified by an "@" symbol (which can be read as "approximately").
